SUMMARY

- Innovative problem-solver with a strong focus on optimizing efficiency through process automation and task simplification.
- Experienced in RPA development and responsive web design, ensuring both functionality and enhanced user experience.
- Proactive, self-taught professional with excellent communication skills, enabling seamless collaboration in cross-functional teams
- Skilled in identifying and implementing technological solutions that drive business value and operational efficiency.
- Proficient in web development, including website maintenance and optimization to ensure performance, security, and seamless user experience

SKILLS

- Microsoft Automate | SQL | html | Javascript | Angular | Git | Python | Jupiter notebooks | VBA | Macros
- Cloud Computing | UIPATH | Azure | AWS Services (Lightsail, Route 53, RDS, Amazon S3, Amazon EC2)
- Scrum

LANGUAGES

- Spanish – Native Proficiency
- English – Advanced. English Language Pathway Program (Pathway 3.3), ILAC.

EXPERIENCE

Automation Developer

DHL – EXPRESS

07/2023 – 12/2023

- Developed two automation solutions capable of processing 80 PDF files per minute and transferring the extracted information into a data source. Such as an Excel file.
- I created a solution that extracted data from an Excel file and performed validations on the Equifax website to verify the credit information of potential clients.
- I designed and implemented an end-to-end automation for extracting invoice details and automating data validation, approval, and payment execution

Web Developer

Intelcorp Peru

01/2019 – 02/2022

- Provided technical support by maintaining and updating websites, ensuring optimal performance, security, and seamless user experience.
- Modeled MySQL databases to improve system performance and query efficiency.
- Gathered and implemented user stories, aligning IT solutions with business objectives.
- Scheduled and conducted user meetings to address technical issues and ensure smooth operations.
- Collaborated with a design and development team to build websites for companies across various industries in Peru, delivering tailored and optimized solutions.

Data Analyst

Vida Software

05/2025 – 04/2026

- Data cleaning, validation, and loading for different clients.
- Review, editing, and development of Python scripts to automate data extraction tasks.
- Assertive and constant communication with clients regarding their data to ensure optimal service.
- Extensive use of **SQL**, **Excel**, **Python**, and any other tools that allow me to process and manage data effectively.

EDUCATION

Bachelor's Degree in Information Systems Engineering

Universidad Peruana de Ciencias Aplicadas (2018-2023). LIMA – PERU

CERTIFICATIONS
